

DOCXPRESSO

Docxpresso solves the paperwork problem with an easy to use and affordable solution.

Paperwork costs businesses and citizens millions of euro every year. Besides, there is the environmental impact.

We give any organization the tool to create Digital Services from Word Documents, save money, and save the environment.

Docxpresso is an easy way to create online forms from Word Documents by simply typing them and uploading them online through a click of a button Docxpresso is also secure (would you send a legal contract with Google Docs or get the required data with a Google form?). Our technology is robust, incredibly powerful, and simple. This is what our customers say:

“ Docxpresso created a system that it’s saving weeks of work every year.”,
Alcobendas City Hall, Madrid.2016

Our market is every company. Every organization deals with paperwork. HR, Legal, Billing, Invoicing, Surveys, Forms, RFP, etc. Our market is global.

Competitors, such as DocuSign, offer products with a limited scope in a “locked in” cloud service. Docxpresso offers cloud services and installation on premises and a wide range of tools: e-signature, forms, charts, dynamic reporting, open data, notifications, security and other. Everything is open source.

Marketing

- **Door to door sales.** Each demo leads to a new client. We conduct 2 - 3 presentations per week.
- **SEO and direct.** We have X visits / month and growing. Conversion rate X%.
- **Resellers.** In negotiation with top IT companies in Spain. Expanding to other countries. Working with Small Business Directories and Cloud Service Providers to offer our tool to their clients.
- **Hosting an e-government** event in Spain. **Attending industry events** all over Europe.

Financial & Funding

- **x euros / month** in revenue. x% growth monthly
- **Raising 0 for a 12 month runway** to continue development and consolidate the X Market.
- **Current team:** X. Will add X more developers post funding.
